Awards and fellowships

Gold AAAS Kavli Science Journalism Award, NIHCM Research and Journalism Award, The Best American Infographics 2016, Harvard Medical School Media Fellowship, Fulbright Fellowship

2018 **2015 – 2018** [Interactives Editor at STAT, Boston Globe Media LLC.](#)

I create data visualizations and data-driven stories for Stat, helping to turn complex information into visualizations that tease out hidden patterns and connections.

2015 **2013 – 2015** [Professor at the Russian Regional Finance and Economics Institute](#)

Faculty member working remotely on developing online and distance learning courses for the university.

2012 **2011 - 2015** [EECA Consultant at Euromonitor International](#)

Project manager and researcher responsible for the management of bespoke consulting projects that included quantitative and qualitative analytics, data visualizations, and presentations. Conducted market research and policy analysis that helped multinational blue chip FMCG companies and international agencies expand their presence in Eastern Europe and Central Asia.

2009 **2009 – 2010** [Fulbright Postdoc at Brandeis International Business School](#)

Analyzed significant national, regional, and global economic trends to assess the growth prospects of emerging post-Soviet economies. Constructed a framework for translating the best Western business practices and policies to the realities of emerging markets, which have only recently begun to integrate into the global economy.

2008 **2008 – 2013** [Chair of the Finance Department at the Russian Regional Finance and Economics Institute](#)

Numerous administrative responsibilities in addition to research and teaching duties: set the agenda for the department while collaborating with other departments; created and maintained budgeting and operations databases related to ongoing university programs; monitored all department activities; communicated with the general public, government officials, and other universities.

2007 **2007 – 2008** [Associate Professor at the Russian Regional Finance and Economics Institute](#)

Taught courses and conducted research on various economic topics, including economies of scale, synergy, optimal structure, and scale of enterprises; wrote research papers and reports, and created data visualizations. Teaching: taught courses in international economics, macroeconomics, and organization theory; mentored students; applied a wide range of pedagogical tools from traditional lectures to Internet-based technologies; developed course materials and visualizations that were used by other instructors.

2006 **2006 – 2007** [Senior Lecturer at the Russian Regional Finance and Economics Institute](#)

Taught courses in international economics and macroeconomics.

2003 **2003 – 2006** [Lecturer at Moscow Institute of Law](#)

Taught courses in international economics and macroeconomics; designed educational materials including visualizations.
